EDRS PRICE	MF01/PC09 Plus Postage.
DESCRIPTORS	Adolescents; Birth Weight; Child Abuse; Child Health; Child Neglect; Child Welfare; *Children; College Entrance Examinations; Crime; Delinquency; Demography; Dropout Rate; Early Parenthood; Elementary Secondary Education; Employed Parents; Family (Sociological Unit); High School Graduates; Higher Education; Income; Mental Health Clinics; Mortality Rate; Parent Background; *Poverty; Prenatal Care; Sexual Abuse; *Social Indicators; State Surveys; Statistical Surveys; Substance Abuse; Tables (Data); Unemployment; Violence; *Well Being; Youth Problems
IDENTIFIERS	*Arkansas; Arrests; Food Stamp Program; *Indicators; Women Infants Children Supplemental Food Program

ABSTRACT

This Kids Count data book is the second to examine the status of children in Arkansas as measured by demographic, socioeconomic, educational, health, and safety indicators. The statistical report is based on 16 indicators of well-being: (1) percent children in married-couple families; (2) percent teen mothers with no first trimester prenatal care; (3) percent children eligible for school lunch program; (4) percent of all births to teens; (5) percent high school seniors taking ACT examination with scores greater than 18; (6) child abuse/neglect/sexual abuse rate; (7) juvenile property crime arrest rate; (8) children in foster care; (9) source of youth substance abuse problems; (10) children served in the mental health system; (11) juvenile arrests by type of crime; (12) per capital personal income; (13) children receiving food stamps; (14) women receiving food supplements; (15) percent high school graduates enrolled in higher education; and (16) infant mortality rate. The report's introduction discusses issues facing children and youth in Arkansas as identified by a sample of 400 adults in the Arkansas Consumer Sentiment Survey. In order of ranking, the following were identified as the most important issues: drug/alcohol use, educational quality, race relations, community violence, and family instability. The bulk of the report is comprised of profiles at the state, planning and development

Errata Sheet for State, PDD, and County Profiles

10/21/94

The following percentages are the correct measures for the indicators listed below. The percentages listed on the profile pages in the data book are for ages 10-18 instead of ages 10-17. The percentages listed on the data pages may still be useful for you, as they are not incorrect, but just for a different age group (age 10-18). The associated charts and maps have been revised and are also included. The Department of Health and the Children's Data Center apologize for any inconvenience this may have caused you.

We would like to express our appreciation to the following individuals who helped with the data book design, provided data and definitions, and proofread all figures and descriptions for accuracy:
Jerry Bell (AIEA), David Bolt (DHS), Lynn Bulloch (Arkansas Crime Information Center), Dorothy Caldwell (Child Nutrition/ADE), Huey Crisp (UALR), Ann Davis (ADE), Melissa Goff (Arkansas Dept of Higher Education), Sue Hassell (AIEA), Rhonda High (AIEA), Ernie Huff (ADE), Ronald Hy (Arkansas Institute of Government), Mary McFarland (AIEA), Mary McGehee (AIEA), David Rickard (DHS), Dale Seay (AIEA), Debbie Shiell (DCFS/DHS), John Shelnutt (AIEA), Barbara Sisco (Head Start), Phyllis Smith (AIEA), Anita Southard (WIC/ADH), David Swanson (AIEA), Janet Turner-Dooley (AIEA), Monte Venhaus (AIOG), Neva Wayman (AIEA), Phillip Whiting (Child Nutrition/ADE), and Kathryn Wilkerson (DHS).

Introduction

The Children's Data Center Project is an adjunct of the Arkansas Census State Data Center, located in the Arkansas Institute for Economic Advancement at the University of Arkansas at Little Rock. Our objective is to collect, process, and distribute data relating to the status of children in Arkansas. The Arkansas Kids Count Data Book is produced annually to provide you with the most recent data available. The 1993 Data Book was our first report. The Children's Data Center also maintains a data base containing all data indicators listed in the data book, plus many other indicators, and other measures of the published indicators. All available years are stored in the data base, beginning with the base year, 1990. Customized reports, charts/maps, and data research are available. Indicators can be summarized by various geographic districts (other than PDD's) for mapping or reporting purposes. Diskettes of this year's Data Book will be available in December, 1994.

The Arkansas Kids Count Data Book is divided into five sections: 1) Summary of Indicators; 2) State Profile; 3) Arkansas Planning and Development District Profiles; 4) County Profiles; and 5) Definitions and Sources. The information included in the Data Book attempts to show the status of children in the state of Arkansas as measured by demographic, socioeconomic, educational, health, and safety indicators. The data items were suggested by the members of the Arkansas Kids Count Technical Advisory Committee who represent various agencies that work with or provide services to the children and youth of the state. The data supplied to the Children's Data Center Project by the various state agencies came from both published reports and unpublished sources and was provided in electronic format, in most instances. Even though every attempt has been made to assure the accuracy of the data, the agencies, who also provided definitions and sources to cite, remain the final authority on the quality and meaning of the data.

The state of Arkansas is divided into eight districts for planning and development purposes, and these PDDs are used extensively in demographic and economic research. The districts group the seventy-five counties into areas in which the data samples will be large enough to develop statistically meaningful comparisons.

In all the profiles, the demographic section describes the population and family relationships and is drawn from the 1980 and 1990 Census of Population. The profile for the state of Arkansas shows data for 1990 and 1993 for all other indicators. The planning and development district (PDD) and the county profiles show indicators for the latest available year along with the comparable numbers for the state for that same year. The year of the data is indicated alongside the variable name and may be for 1990, 1991, 1992, 1993, or 1994. **All data received from the Arkansas Department of Health is "Preliminary". Verification of health data may be made after November 1, 1994.**

Following is a list of **revisions/changes/additions** found in this year's Data Book.

Socioeconomic Profile

1. The AFDC numbers (FY 93) published in the 1993 Data Book for Conway County and the West Central PDD were incorrect. They should have been 575 and 6055 respectively.
2. Women, Infants, and Children Receiving WIC has been added to the profile pages. County level information is available for years 1992 to present.
3. The measurement for school lunches has been changed. The 1993 Data Book showed this indicator as the number of lunches served. This year, the indicator is shown as the Percent Children Eligible for Free/Reduced Lunches. County level information is available for school years 90/91 to present.
4. Percent Births to Teens (10-17) has been added. County data is available beginning with 1990.

5. Percent Births to Single Teens has been changed. Last year this number was a measure of teens under age 20. In order to remain consistant with our other indicators and our definition of 'children', we are now collecting this indicator for age 10-17. This is why the number for 1990 on the State Profile is different than the number published in the 1993 Data Book.
6. Unemployment rates for 1990-1992 have been revised; the new rates are published in this book.
7. Child Support Indicators - Last year we were only able to present state level data. We will continue to collect that data, but this year we've added five new indicators that are available by county. Because the new indicators were not available for fiscal years 1990 or 1993, we printed last year's measures for FY 93 on the State Profile. The PDD and County Profiles contain the new measures for FY 94. **This is the only indicator presented as one measure on the State Profile, and another measure on the PDD and County Profiles.** Please note that the new indicators on the PDD and County Profiles are **not** annual figures, but **monthly averages** for fiscal year 1994.

Education Profile

1. The Head Start number listed under 1992 on the State Profile (1993 Data Book) was 92/93 data, not 91/92 data. The number for 91/92 was 7,680 funded slots.
2. Per Pupil Expenditures for 1992 on the State Profile (1993 Data Book) was 90/91 data, not 91/92 data. The number for 91/92 was $3,155.
3. Percent Enrolled in Tech Prep (grades 8-12) has been added. This track was made available to students in public schools beginning in the fall of 1992.
4. College Remedial Rates for Reading, Math, and English have been added. This data is currently available at the state level only. We have this data for Fall 1988 to present.

Health Profile

1. Percent Teen Mothers (10-17) Receiving No Prenatal Care in the 1st Trimester has been added. This data is available for 1990 to present. We also collect Percent Teens Who Began Receiving Prenatal Care in the 3rd Trimester, or Not at All for the same time period.
2. Percent Mothers Receiving No Prenatal Care in the 1st Trimester is the same indicator as Percent Mothers Receiving Inadequate or No Prenatal Care in the 1993 data book. Only the title has changed. We also collect Percent Women Who Began Receiving Prenatal Care in the 3rd Trimester, or Not at All for 1990 to present.
3. Percent Adequately Immunized for K/1st Grade has been transposed. The 1993 Data Book presented this indicator as Percent Inadequately Immunized for K/1st Grade.

Safety/Security Profile

1. Number of Child Maltreatment Victims has been added. This data is available beginning with 1990.
2. The Teen Violent Death Rate in the 1993 Data Book was actually the Teen Death Rate. The 1994 Data Book contains correct data for this indicator. Data is available beginning with 1990.
3. The Juvenile Violent Crime Rate (10-14) and the Juvenile Property Crime Rate (10-14) has been changed. The 1993 Data Book's rate included children arrested under the age of 10. Because we did not know their actual ages, we had to use the population 0-14 to calculating the rates. This year we are not including arrests under age 10, so the population used was ages 10-14. Data is available beginning with 1990.
4. The Juvenile Violent Crime Rate (10-14 and 15-17) and the Juvenile Property Crime Rate (10-14 and 15-17) was calculated per 100,000 in the 1993 Data Book. This year these rates are calculated per 1,000. This rate may be more useful for smaller counties and helps when comparing Arkansas data to data in other states' Kids Count Books.

Issues Facing Children and Youth in Arkansas Today

The Arkansas Consumer Sentiment Survey is a quarterly survey conducted by the Arkansas Institute for Economic Advancement and the Arkansas Institute of Government at UALR. It has become a regularly quoted measure of potential retail activity and is distributed among business planners and the media. A computer assisted telephone interviewing system is utilized with numbers generated through a random digit dialing software program. Approximately 400 adults throughout Arkansas are interviewed and asked questions about purchasing plans, sentiment of family financial conditions and job security, and impressions of the overall state of Arkansas and U.S. economies. Index questions from the University of Michigan Index of U.S. Consumer Sentiment are a part of the interview. In addition, questions on age, sex, race, and income are asked of the respondents which are used to verify that the respondents are representative of the Arkansas population.

The quarterly survey conducted during fiscal year 1994 (July 1993-June 1994) included a question related to the most important issue facing children and youth in Arkansas today. The five issues to be included in the survey question were developed from two group planning sessions held on May 11, 1993, at St. James United Methodist Church and conducted by The Communications Group (Little Rock, Arkansas). The groups included twenty-eight individuals representing several different agencies, collaboratives, and groups dealing with children and youth. The response from the two groups resulted in a consensus of five issues which were addressed in the following question on the August survey:

> "I would like to ask you one final question that will help in identifying the most important issues facing children and youth in Arkansas today. I am going to read five issues of concern. Please rank these issues in order of importance with '1' being the issue of most importance for children and youth today, and '5' being the issue of least importance for children and youth today.
>
> Use of Drugs and/or Alcohol
> Quality of Public Education
> Race Relations
> Violence in the Community
> Family Instability"

The results of the survey produced a sampling error of less than five percent (at a 95 percent confidence interval).

The Arkansas Kids Count Technical Advisory Committee also felt that these issues are of great importance to children and youth today. **Family instability** indicators chosen for inclusion by the committee include the following: Percent Children in Single Mother or Single Father Families, and Percent Births to Single Teens. **Quality of Public Education** indicators selected for inclusion in the data book include the following: Per Pupil Expenditures, Percent Enrolled in Core Curriculum Math and Science, Percent Seniors with ACT Scores Higher than 18, Percent High School Graduates Enrolled as Freshmen in Higher Education, and College Remedial Rates. Indicators representing **Violence in the Community** chosen for the data book include the following: Child Abuse/Neglect/Sexual Abuse Victim Rates, Teen Violent Death Rates, and Juvenile Arrest Rates. An indicator of **Drugs and/or Alcohol** use has been identified this year. The Bureau of Alcohol and Drug Abuse Prevention is now represented on the Technical Advisory Committee and drug/alcohol data can be found in the Summary of Indicators section of the Data Book. Data on mental health and foster care are also provided in the Summary of Indicators section this year and representatives from these agencies (Mental Health Services and Division of Children and Family Services) have also joined the committee.

Issues Facing Children and Youth in Arkansas Today

A chart of the results for all four quarters of the survey is provided below.

"What is the Most Important Issue Facing Arkansas' Children & Youth Today?
The percent of respondents ranking each issue as "Most Important"

DEMOGRAPHIC PROFILE

TOTAL POPULATION: the total number of people residing in a specific geographic area as enumerated by the decennial census on April 1. A geographic area ~~may~~ be a city, township, county, state, nation, census tract, block group, or block.

TOTAL POPULATION UNDER 18: the total number of people between the ages of one day and eighteen years as of April 1 of the census year.

PERCENT POPULATION UNDER 18: the 'total population under 18' divided by the 'total population.'

TOTAL MINORITY POPULATION UNDER 18: the number of people between the ages of one day and eighteen years as of April 1 of the census year who are black; Asian or Pacific Islander; American Indian, Eskimo, or Aleutian; or any other unspecified race (not Hispanic, since Hispanics may be of any race).

MINORITY PERCENT OF POPULATION UNDER 18: the 'total minority population under 18' divided by the 'total population under 18.'

The 1990 population counts used in the Children's Data Book do not match those published in the 1990 Census of Population and Housing reports and tape files. The population has been 'modified' by age, race, sex, and Hispanic origin to meet the needs of many data users, especially those involved in population estimate and projection work.

In 1990 a review of the detailed 1990 information indicated that respondents tended to provide their age as of the date of completion of the questionnaire, not their age as of April 1, 1990. In addition, there may have been a tendency for respondents to round up their ages if they were close to having birthdays. It is likely that approximately ten percent of persons in most age groups are actually one year younger. For most single years of age, the misstatements are largely offsetting. The problem is most pronounced at age zero because persons lost to age one may not have been fully offset by the inclusion of babies born after April 1, 1990 and because there may have been more rounding up to age one to avoid reporting age as 'zero years'. Age in completed months was not collected for infants under age one. Therefore, the age data from the 1990 Census were adjusted to correspond with the April 1, 1990 census date.

In addition, 9.8 million respondents nationwide reported their race as 'Other' on the Census questionnaire and were not included in one of the fifteen racial categories listed on the form. In order to serve the needs of the user community, it was necessary to assign each of these persons to a specified race, and thus the race statistics were modified to be consistent with the classification used in data sets other than census.

Sources: U.S. Department of Commerce, Bureau of the Census, *1980 Census of Population, General Population Characteristics, Arkansas,* Tables 19 and 45; and 1990 Census of Population and Housing: Modified Age/Race, Sex, and Hispanic Origin (MARS) State and County File.

FAMILY: a family consists of a householder and one or more other persons living in the same household who are related to the householder by birth, marriage, or adoption.

Definitions and Sources

Indicators are listed below in order of placement on the data pages

DEMOGRAPHIC PROFILE *(continued)*

MARRIED COUPLE FAMILY: a family in which the householder and spouse are enumerated as members of the same household.

SINGLE MOTHER OR SINGLE FATHER FAMILIES: families in which no spouse is present.

Any of these families may contain children under eighteen years to whom the householder and/or spouse are related by birth or adoption. The number of children in each of the three categories divided by the total number of children determines the percent children in each type of family. These three categories may not sum to 100%, because not all children are in families.

Sources: U.S. Department of Commerce, Bureau of the Census, *1980 Census of Population, General Population Characteristics, Arkansas,* Tables 21 and 48; and 1990 Census of Population and Housing, Summary Tape File 3-A, Arkansas, Profile 7, Table P23.

SOCIOECONOMIC PROFILE

CHILDREN RECEIVING AFDC: Aid to Families with Dependent Children (AFDC) is a program designed to meet the basic needs of children under age 18 who are deprived of the care or support of one or both parents through monthly cash assistance. To be eligible, a family's net spendable monthly income must be within certain income units which depend on the family size.

Source: Arkansas Department of Human Services, Report RS-4119 (Category 20 only), Fiscal Years 1990-1994.

CHILDREN RECEIVING FOOD STAMPS: The Food Stamp program is designed to provide nutrition to low income individuals and households in the form of coupons. The amount of coupons allotted is based on the household size, resources, and income.

Source: Arkansas Department of Human Services, Report RS-0869 and Report RS-1203, Fiscal Years 1990-1994. (County totals may not add to state totals due to rounding.)

WIC: The Arkansas WIC program (Special Supplemental Food Program for Women, Infants, and Children) is designed to improve nutrition during periods of critical growth. The program provides food-specific vouchers as well as nutrition education and referral. Pregnant, breastfeeding and postpartum women, infants, and children under age five are eligible for WIC if they: 1) live in Arkansas; 2) meet income guidelines (set at 185% of poverty); and 3) are nutritionally eligible. WIC is funded by USDA, Food and Nutrition Services and administered by the Arkansas Department of Health. The Arkansas WIC Program serves eligible applicants without regard to race, color, national origin, age, sex, or disability.

SOCIOECONOMIC PROFILE (continued)

PERCENT CHILDREN ELIGIBLE FOR FREE/REDUCED LUNCH PROGRAM (Public Schools K-12): Students eligible for free or reduced price lunches have been determined to meet income and family size guidelines established for the National School Lunch Program and School Breakfast Program, administered by the U.S. Department of Agriculture. Eligibility is primarily determined from applications submitted to the school by the student's family. A new program allows the Department of Education and Department of Human Services to directly certify students for free meals by electronically matching social security numbers of students with eligibility determinations for food stamps or AFDC. Each school district reports numbers of students eligible on October 1 of each year. The percent eligible is this number as a percent of the school district's enrollment.

Source: Arkansas Department of Education; Child Nutrition Section, Paradox Data Base.

PERCENT CHILDREN IN POVERTY: "Poverty Status" in the 1990 Census is determined from income data. Poverty thresholds are arranged in a two-dimensional matrix based on family size and number of children in the family. The total income of the family was tested against the appropriate threshold to determine the poverty status of the family. If the family income was less than the corresponding cutoff, the family was classified as "below poverty level." The number of children below poverty was the sum of all children in families below the poverty level. The percent of children in poverty was the sum of children below the poverty level divided by the total number of all children in families.

Source: U.S. Department of Commerce, Bureau of the Census, 1990 Census of Population and Housing, Summary Tape File 3-A, Arkansas, Profile 17, Table P117/118.

PERCENT CHILDREN IN FAMILY WITH NO PARENT IN THE WORK FORCE: The sum of all children living in a family unit in which no parent is in the work force divided by total population under 18.

WORK FORCE: The work force (or labor force) is defined as persons who are either employed or unemployed.

> EMPLOYED: All civilians sixteen years old and over who were either (1) "at work" - those who did any work at all during the reference week as paid employees, worked in their own business or profession, worked on their farm, or worked fifteen hours or more as unpaid workers on a family farm or in a family business, or (2) were "with a job but not at work" -- those who did not work during the reference week but had jobs or business from which they were temporarily absent.
>
> UNEMPLOYED: Civilians sixteen years old and over are classified as unemployed if they (1) were neither "at work" nor "with a job but not at work" during the reference week and (2) were looking for work during the last four weeks, and (3) were available to accept a job. Also included as unemployed are civilians who did not work at all during the reference week and were waiting to be called back to a job from which they had been laid off.

SOCIOECONOMIC PROFILE (continued)

WOMEN WITH YOUNGEST CHILD UNDER SIX, PERCENT IN THE WORK FORCE: Women sixteen years and over in the work force whose youngest child is under age six, divided by the total number of women whose youngest child is under age six.

Source: U.S. Department of Commerce, Bureau of the Census, 1990 Census of Population and Housing, Summary Tape File 3-A, Arkansas, Profile 12, Table P73.

WOMEN WITH YOUNGEST CHILD AGE 6-17, PERCENT IN THE WORK FORCE: Women sixteen years and over in the work force whose youngest child is age 6-17, divided by the total number of women whose youngest child is age 6-17.

Source: U.S. Department of Commerce, Bureau of the Census, 1990 Census of Population and Housing, Summary Tape File 3-A, Arkansas, Profile 12, Table P73.

PERCENT BIRTHS TO TEENS: The percent of all births in which the woman was less than 18 years of age.

Source: Arkansas Department of Health, Bureau of Health Resources, Center for Health Statistics.

PERCENT BIRTHS TO SINGLE TEENS: The percent of all births in which the teen (age less than 18) is not married.

Source: Arkansas Department of Health, Bureau of Health Resources, Center for Health Statistics.

PERCENT BIRTHS TO MOTHERS WITH LESS THAN 12 YEARS OF EDUCATION: The percent of all births where the woman (all ages) has received less than 12 years of formal education.

Source: Arkansas Department of Health, Bureau of Health Resources, Center for Health Statistics.

UNEMPLOYMENT RATE FOR YOUTHS (ages 16-19): The total number of unemployed youths divided by the total number of youths in the work force (employed and unemployed).

Source: U.S. Department of Commerce, Bureau of the Census, 1990 Census of Population and Housing, Summary Tape File 3-A, Arkansas, Profile 10, Table P61/62/63.

UNEMPLOYMENT RATE: Unemployment divided by the Civilian Labor Force.

Source: Labor Market Information Section, Arkansas Employment Security Department, in cooperation with the U.S. Department of Labor, Bureau of Labor Statistics.

SOCIOECONOMIC PROFILE (continued)

PER CAPITA PERSONAL INCOME: This income measure is the total personal income of the residents of a given area divided by the resident population of the area. Per capita personal income is often used as an indicator of the quality of consumer markets and of the economic well-being of the residents of an area.

Source: U.S. Department of Commerce, Bureau of Economic Analysis, May 1994.

Child Support (State Profile):

NUMBER OF ABSENT PARENTS LOCATED: The number of absent parents in our caseload for which a residence address and/or an employer name and address has been verified within the preceding fiscal year.

NUMBER OF PATERNITIES ESTABLISHED: The number of cases in our caseload for which paternity of a child/ren has been determined by the Court within the preceding fiscal year.

NUMBER OF ORDERS OBTAINED: The number of cases in our caseload for which an order of child support and/or medical support has been entered by a court within the preceding fiscal year.

AMOUNT COLLECTED: Total amount of money distributed to custodial parents for current support and arrearages (past due support) for the preceding fiscal year.

Source: Arkansas Office of Child Support Enforcement Data Base.

Child Support (PDD and County Profiles):

NUMBER OF CHILD SUPPORT CASES: The monthly average of the number of child support cases during fiscal year 1994.

NUMBER OF OBLIGATED CHILD SUPPORT CASES: The monthly average of the number of child support cases with an obligation to pay support during fiscal year 1994.

PERCENT OF OBLIGATED CASES PAYING CHILD SUPPORT: The monthly average of the percent of child support cases that are under an obligation to pay child support during fiscal year 1994.

PERCENT OF OBLIGATIONS COLLECTED: The monthly average of the percent of child support cases that were under obligation to pay support, and support was paid during fiscal year 1994.

TOTAL COLLECTIONS: The monthly average of money collected for child support during fiscal year 1994.

SOURCE: Arkansas Office of Child Support Enforcement Data Base.

SOCIOECONOMIC PROFILE (continued)

CHILDREN RECEIVING CHILD CARE ASSISTANCE: Children of eligible parents receive child care assistance while the parents (guardian) work, attend an educational program or training. Each county receives an allocation of the available funds. Parents apply for the services and services are provided by eligible child care providers. Most counties have waiting lists of eligible parents. Child care may be provided to children who are in foster care or to children with open protective service cases if the caseworker determines the service is needed or if it is court ordered.

Source: Arkansas Division of Children and Family Services, Central Eligibility Unit.

EDUCATION

HEAD START - NUMBER OF FUNDED SLOTS: Each Head Start program is funded to provide services to a designated number of children. This quota is established by the regional office, Administration for Children, Youth, and Families. Due to the turnover of children receiving services, additional individual children will be enrolled. This is the actual enrollment.

Source: Arkansas Head Start Association.

SPECIAL ED ENROLLMENT: The number of students counted under the P. L. 94-142 grant within the school districts. Students in special education placements are those who have been identified as disabled according to criteria set forth in state and federal regulations, and who are receiving special education and related services in one or more of the following ways: Itinerant Instruction, Indirect Services, Resource Services, Integrated Classroom, Special Class Services, Special Day School (Public), Special Day School (Private), and/or School-based Day Treatment Services. In addition, some students receive their special education and related services in a state-operated residential school or private facility and, in some situations, students are provided services in the home.

Source: Arkansas Department of Education, Special Education.

HOMESCHOOL ENROLLMENT: The number of children in grades K-12 enrolled in a homeschool. Homeschool is defined as a school primarily conducted by parents or legal guardians for their own children. Arkansas Code 6-15--501.

Source: Arkansas Department of Education.

PER PUPIL EXPENDITURES: Current Expenditures per child in Average Daily Attendance (ADA) for grades K-12. This does not include Employer Matching Teacher Retirement, Elementary Textbooks, or Federal Grants Funds Expenditures.

Source: Arkansas Department of Education, *Statistical Summary for the Public Schools of Arkansas 1989-1991*, p 3; *1990-1992*, p 3; *1991-1993*, p 3.

Indicators are listed below in order of placement on the data pages

EDUCATION (continued)

HIGH SCHOOL DROPOUT RATE: The number of students dropping out in grades 7-12 from October 31 of one school year (previous year) through October 31 of the next school year (current year) divided by the number of students enrolled in grades 7-12 as of October 1 of the current year. A dropout is an individual who has not graduated from high school or completed a state- or district-approved educational program; and does not meet any of the following exclusionary conditions: a) transfer to another public school district, private school district, or state- or district-approved education program, b) temporary absence due to suspension or school-approved illness, or c) death.

Source: Arkansas Department of Education, November Dropout Report.

PERCENT ENROLLED IN CORE CURRICULUM MATH (grades 9-12): Two core curriculum paths for secondary mathematics are defined in the *Standards for Accreditation of Arkansas Public Schools* and outlined in the Rules and Regulations for Act 980 of 1991. Under the College Preparatory Track, students must complete Algebra I, Algebra II, and Geometry as a minimum core program. Under the Technical Preparatory Track, students must complete three units of mathematics at least two of which must include content equivalent to mathematics courses in the College Preparatory Track.

Source: Arkansas Department of Education Data Base.

PERCENT ENROLLED IN CORE CURRICULUM SCIENCE (grades 10-12): The New Standards state that in 1996-1997 all students will graduate in one of two tracks (college prep or tech prep) and will have at least three units in science. Courses in the College Prep track include Biology and Chemistry or Physics, plus one other course from the science curriculum. Courses in the Tech Prep track included Biology or Applied Biology I & II, and Principles of Technology (PT) or Principles of Technology I & II, plus one other course from the science curriculum.

Source: Arkansas Department of Education Data Base.

PERCENT ENROLLED IN TECH PREP (grades 8-12): The percent students in grades 8-12 who have declared a Tech Prep program of study. A "program of study" is a sequence of courses that leads to a major in an occupational area. Beginning in 1996-1997, all students will graduate in one of two tracks; college prep or tech prep.

Source: Arkansas Department of Education, Vocational and Technical Education Division.

PERCENT SENIORS TAKING ACT EXAM: The percent of high school seniors taking the ACT exam is obtained by dividing the number of seniors taking the exam by the total number of seniors enrolled.

Source: Arkansas Department of Education Student Assessment.

Definitions and Sources

EDUCATION (continued)

AVERAGE ACT SCORES: Average ACT scores are obtained by adding the standard scores for a county (and for the state) and dividing the sum by the number of students taking the exam in a county (and the state).

Source: Arkansas Department of Education Student Assessment.

PERCENT SENIORS W/ACT SCORES > 18: The percent of seniors with ACT scores greater than 18 is obtained by dividing the number of students scoring 19 or above by the total number of students taking the exam.

Source: Arkansas Department of Education Student Assessment.

PERCENT H.S. GRADUATES ENROLLED AS FRESHMEN IN HIGHER EDUCATION: The percent of public high school graduates enrolled as full-time freshmen in Arkansas Higher Education.

Source: Arkansas Department of Higher Education, *On-Campus Enrollment and Geographic Origins in Arkansas Higher Education, Fall 1991* (published June 1992) ; *Fall 1992 and Fall 1993* (published July 1994).

PERCENT COLLEGE FRESHMEN ASSIGNED TO READING REMEDIATION, MATH REMEDIATION, ENGLISH REMEDIATION: The percent of first time freshmen assigned to developmental reading courses, developmental math courses, or developmental english courses at Arkansas public colleges and universities. Placement is based on ACT scores and other local indicators.

Source: Arkansas Department of Higher Education, Annual Report on Remediation, April, 1994.

HEALTH

PERCENT TEEN MOTHERS RECEIVING NO PRENATAL CARE IN THE 1ST TRIMESTER: The percent of all teen (age less than 18) births in which the mother (age less than 18) did not begin prenatal care during the first three months of the pregnancy.

Source: Arkansas Department of Health, Bureau of Health Resources, Center for Health Statistics.

PERCENT WOMEN RECEIVING NO PRENATAL CARE IN THE 1ST TRIMESTER: The percent of all births in which the mother did not begin prenatal care during the first three months of the pregnancy.

Source: Arkansas Department of Health, Bureau of Health Resources, Center for Health Statistics.

Definitions and Sources

HEALTH (continued)

PERCENT LOW BIRTHWEIGHT: The percent of all births in which the infant weighed less than 2,500 grams.

Source: Arkansas Department of Health, Bureau of Health Resources, Center for Health Statistics.

INFANT MORTALITY RATE per 1,000: The number of deaths of infants under one year of age per 1,000 live births.

Source: Arkansas Department of Health, Bureau of Health Resources, Center for Health Statistics.

CHILD DEATH RATE per 100,000: The number of deaths from all causes to children ages 1-14 per 100,000 children ages 1-14.

Source: Arkansas Department of Health, Bureau of Health Resources, Center for Health Statistics.

PERCENT ADEQUATELY IMMUNIZED FOR K/1st GRADE: The percent of children entering kindergarten and first grade who have received all age appropriate immunizations. Age appropriate immunizations for this age consists of: five doses of diphtheria, tetanus, pertussis (DTP); four doses polio vaccine; one dose measles, mumps, rubella (MMR); three to four doses Haemophilus influenza type B (HIB); and three doses Hepatitis B. Tracking of age appropriate immunizations began with the 1990 - 1991 school year.

Source: Arkansas Department of Health, Bureau of Public Health Programs, Preventative Health Services, Immunizations/Communicable Disease.

SAFETY/SECURITY

CHILD ABUSE: Any nonaccidental physical injury, mental injury, sexual abuse, or sexual exploitation inflicted on a child by anyone legally responsible for the care and maintenance of the child, or an injury which is at variance with the history given. The term encompasses both acts and omissions.

NEGLECT: A failure to provide, by those legally responsible for the care and maintenance of the child the proper or necessary support; education, as required by law; or medical, surgical, or any other care necessary for his well-being; or any maltreatment of the child. The term encompasses both acts and omissions.

SEXUAL ABUSE: Includes solicitation and/or participation in sexual activity with a child by an adult or person responsible for the care and maintenance of the child. This type of abuse can be perpetrated by either a caretaker or a non-caretaker. Sexual abuse also includes any offense relating to sexual activity, abuse, or exploitation, including rape and incest, as set out and defined in the Arkansas Criminal Code and amendments.

Definitions and Sources

SAFETY/SECURITY (continued)

REPORTED CHILD ABUSE/NEGLECT/SEXUAL ABUSE INVESTIGATIONS: The number of child abuse, neglect, or sexual abuse (or any combination thereof) investigations reported to the Division of Children and Family Services (DCFS) or to SCAN (Suspected Child Abuse and Neglect). Reports must be made to the appropriate authorities and require a reasonable suspicion of maltreatment as defined in law.

Source: Arkansas Department of Human Services, Report CA-4088, Fiscal Years 1990-1994.

FOUNDED CHILD ABUSE/NEGLECT/SEXUAL ABUSE INVESTIGATIONS: The number of substantiated child abuse, neglect, or sexual abuse (or any combination thereof) investigations. The decision to substantiate an investigation is based on some level of credible evidence. There are five types of credible evidence: 1) the perpetrator admits to the offense, 2) the court adjudicates that maltreatment did occur, 3) due to other medical or legal confirmation deemed valid by DCFS, 4) credible evidence is obtained as a result of the investigative process, or 5) a medical diagnosis of "failure to thrive."

Source: Arkansas Department of Human Services, Report CA-4088, Fiscal Years 1990-1994.

NUMBER OF VICTIMS: A victim is a child on whom an allegation of maltreatment has been founded.

Source: Arkansas Department of Human Services, Report CA-4088, Fiscal Years 1990-1994.

CHILD ABUSE/NEGLECT/SEXUAL ABUSE VICTIM RATE: The number of children who have been victimized as a result of child abuse, neglect, or sexual abuse per 1,000 children. The 1990 MARS population file was used in calculating the 1990 rates. The 1993 population estimate file was used in calculating the 1993 and 1994 rates.

Sources: (Victims) Arkansas Department of Human Services, Report CA-4101, Fiscal Years 1990 and 1992, and (Population) U.S. Department of Commerce, Bureau of the Census, 1990 Census of Population and Housing: Modified Age/Race, Sex , and Hispanic Origin (MARS) State and County File; and Demographic Research AIEA/UALR: 1993 Population Estimates File.

TEEN VIOLENT DEATH RATE: The number of deaths from homicide, suicide, and accidents to teens (age 15-19) broken out as: per 100,000 teens age 15-17, and per 100,000 teens age 18-19. The Health Statistics Division of ADH used the 1993 population estimates to calculate infant, child, and teen death rates.

Source: Arkansas Department of Health, Bureau of Health Resources, Center for Health Statistics.

Definitions and Sources

SAFETY/SECURITY (continued)

JUVENILE VIOLENT CRIME ARREST RATE: The number of juvenile arrests (all ages under 18) for violent crimes (murder, rape, robbery, and aggravated assault) broken out as per 1,000 children ages 10-14, and per 1,000 children ages 15-17. The 1990 MARS population file was used in calculating the 1990 rates. The 1993 population estimate file was used in calculating the 1993 rates.

Sources: (Juvenile Arrests) Arkansas Crime Information Center, and (Population) U.S. Department of Commerce, Bureau of the Census, 1990 Census of Population and Housing: Modified Age/Race, Sex, and Hispanic Origin (MARS) State and County File, and Demographic Research AIEA/UALR: 1993 Population Estimates File. .

JUVENILE PROPERTY CRIME ARREST RATE: The number of juvenile arrests (all ages under 18) for property crimes (burglary, theft, motor vehicle theft, and arson) broken out as per 1,000 children ages 10-14, and per 1,000 children ages 15-17. The 1990 MARS population file was used in calculating the 1990 rates. The 1993 population estimate file was used in calculating the 1993 rates.

Sources: (Juvenile Arrests) Arkansas Crime Information Center; and (Population) U.S. Department of Commerce, Bureau of the Census, 1990 Census of Population and Housing: Modified Age/Race, Sex, and Hispanic Origin (MARS) State and County File, and Demographic Research AIEA/UALR: 1993 Population Estimates File.

NOTES:

ALL DATA RECEIVED FROM THE ARKANSAS DEPARTMENT OF HEALTH IS "PRELIMINARY DATA". You may contact the ADH after November 1, 1994 for verification of all health statistics.

Unless otherwise stated, 'children' = all individuals under the age of 18.

Final authority on the quality and meaning of the data remains with the sources.

(DEMOGRAPHIC Section) Additional information on the MARS file and the 1993 population estimates can be obtained by contacting Demographic Research, Arkansas Institute for Economic Advancement, University of Arkansas at Little Rock.

(CHILDREN RECEIVING CHILD CARE ASSISTANCE) Children served by Project Success monies are not included in any annual totals. In 1992 an additional program, "The Child Care & Development Block Grant," began serving children. Numbers for this program are included in the 1992 numbers.

(JUVENILE VIOLENT CRIME ARREST RATE and the JUVENILE PROPERTY CRIME ARREST RATE) All arrests reported to the Arkansas Crime Information Center are reported on a voluntary basis.
